

Sponsorship Opportunities

Bringing together scientific experts and industrial professionals from across the world, the futurePV workshop will be held on the premises of the **University of Cyprus, Nicosia, Cyprus on the 20-22 May 2025.**

This event will provide a unique and exciting opportunity to become familiar with the entire cross-section of cutting-edge research and development taking place in the field of perovskite-based photovoltaic technology.

High-quality, specialised talks on the subject of perovskite photovoltaics will be delivered in sessions covering metastability & measurements, industrial upscaling, circularity of materials, field performance, and tandem structures.

Share in the success of the futurePV workshop by supporting the event through a sponsorship package!

As a company you have the chance to sponsor this workshop to increase your visibility and highlight your presence as an important and active player in the field of perovskite photovoltaics.

We offer two comprehensive sponsorship packages for different budgets.

Sponsorship Package	Silver	Gold
Sponsorship value	€500	€1000
Complementary tickets	2	4

The most comprehensive workshop for perovskite photovoltaic technology. Ever*.

5

Specialist Topics

Sessions will focus on industrial upscaling, tandem modules, device metastability, circularity of materials and field performance.

12

Projects in the limelight

Bringing together the expertise and latest research results of 12 European research projects from across the continent.

30

Expert speakers

The workshop will gather experts in the field of perovskite photovoltaics from across the world, including the USA, EU, Japan, and Middle East.

1

Brilliant Location

Located at the centre of Cyprus, Nicosia is bathed in sunlight for over 300 days each year. May is one of the best months to experience this resource in person.
